Subject index

Volume 35 (1997)

Adolescence; Diabetes; Diabetic neuropathy; Nerve conduction; Hyperglycemia **35, 157**

Africa; HbA_{1c}; Metabolic control; Insulin-dependent mellitus; Non-insulin-dependent mellitus **35, 129**

Albuminuria; Morbidity; Mortality; Retinopathy; Nephropathy; Type 1 diabetes mellitus **35, 113**

Anthropometric indices; Non-insulin dependent diabetes mellitus; Family predisposition; Birth weight; Precursors; Predictors **35, 75**

Autoantibodies; IDDM; Children; Glutamic acid decarboxylase antibodies; C-peptide **35, 81**

B-cell mass; Exercise; Insulin content; Fibrosis and OLETF rat **35, 11**

Birth weight; Non-insulin dependent diabetes mellitus; Anthropometric indices; Family predisposition; Precursors; Predictors **35, 75**

Calcium channel blocker; Diabetes; Kidney function; Volume expansion; Streptozotocin **35, 69**

Cardiovascular death; Microalbuminuria; Mortality **35, 35**

Children; IDDM; Glutamic acid decarboxylase antibodies; C-peptide; Autoantibodies **35, 81**

Complex carbohydrate; Hypoglycemia; Cornstarch **35, 27**

Complications; Diabetic ketoacidosis; Incidence; Mortality; Type 1 diabetes **35, 123**

Cornstarch; Hypoglycemia; Complex carbohydrate **35, 27**

Coronary heart disease; Lipoprotein (a); Diabetes mellitus (non-insulin-dependent); Microalbuminuria; Insulin therapy **35, 135**

C-peptide; IDDM; Children; Glutamic acid decarboxylase antibodies; Autoantibodies **35, 81**

Delayed sleep phase syndrome; 3243 mitochondrial tRNA mutation; Diabetes mellitus; Mitochondrial encephalopathy; Lactic acidosis; Strokeliike episode syndrome (MELAS) **35, 61**

Diabetes; Diabetic neuropathy; Adolescence; Nerve conduction; Hyperglycemia **35, 157**

Diabetes; Elderly; Follow-up; Impaired glucose tolerance; Obesity; Oral glucose tolerance test; Prognostic factors **35, 99**

Diabetes; Kidney function; Calcium channel blocker; Volume expansion; Streptozotocin **35, 69**

Diabetes mellitus; Education; Intensified insulin therapy; IDDM; Severe hypoglycemia; Knowledge **35, 41**

Diabetes mellitus; 3243 mitochondrial tRNA mutation; Delayed sleep phase syndrome; Mitochondrial encephalopathy; Lactic acidosis; Strokeliike episode syndrome (MELAS) **35, 61**

Diabetes mellitus (non-insulin-dependent); Lipoprotein (a); Coronary heart disease; Microalbuminuria; Insulin therapy **35, 135**

Diabetic foot; Neuropathy; Vascular disease; Type II diabetes mellitus; Primary health care **35, 149**

Diabetic ketoacidosis; Incidence; Complications; Mortality; Type 1 diabetes **35, 123**

Diabetic neuropathy; Diabetes; Adolescence; Nerve conduction; Hyperglycemia **35, 157**

- Dipstick;** Microalbuminuria; Screening 35, 57
- Education;** Diabetes mellitus; Intensified insulin therapy; IDDM; Severe hypoglycemia; Knowledge 35, 41
- Elderly;** Diabetes; Follow-up; Impaired glucose tolerance; Obesity; Oral glucose tolerance test; Prognostic factors 35, 99
- Ethnic differences;** Obesity; Weight change; Waist-to-hip ratio; NIDDM 35, 49
- Exercise;** B-cell mass; Insulin content; Fibrosis and OLETF rat 35, 11
- Family predisposition;** Non-insulin dependent diabetes mellitus; Anthropometric indices; Birth weight; Precursors; Predictors 35, 75
- Fibrosis and OLETF rat;** Exercise; B-cell mass; Insulin content 35, 11
- Follow-up;** Elderly; Diabetes; Impaired glucose tolerance; Obesity; Oral glucose tolerance test; Prognostic factors 35, 99
- Glucose intolerance;** Prevention of diabetes; Weight loss; Progression to diabetes 35, 107
- Glutamic acid decarboxylase antibodies;** IDDM; Children; C-peptide; Autoantibodies 35, 81
- Glutamic acid decarboxylase antibody;** Islet cell antibody; ICA512; IA-2; Slowly progressive IDDM; Sarcoidosis 35, 91
- HbA_{1c};** Africa; Metabolic control; Insulin-dependent mellitus; Non-insulin-dependent mellitus 35, 129
- Hyperglycemia;** Diabetes; Diabetic neuropathy; Adolescence; Nerve conduction 35, 157
- Hypoglycemia;** Cornstarch; Complex carbohydrate 35, 27
- IA-2;** Islet cell antibody; Glutamic acid decarboxylase antibody; ICA512; Slowly progressive IDDM; Sarcoidosis 35, 91
- ICA512;** Islet cell antibody; Glutamic acid decarboxylase antibody; IA-2; Slowly progressive IDDM; Sarcoidosis 35, 91
- IDDM;** Children; Glutamic acid decarboxylase antibodies; C-peptide; Autoantibodies 35, 81
- IDDM;** Diabetes mellitus; Education; Intensified insulin therapy; Severe hypoglycemia; Knowledge 35, 41
- IDDM;** Microalbuminuria; Retinopathy 35, 143
- Impaired glucose tolerance;** Elderly; Diabetes; Follow-up; Obesity; Oral glucose tolerance test; Prognostic factors 35, 99
- Incidence;** Diabetic ketoacidosis; Complications; Mortality; Type 1 diabetes 35, 123
- Insulin content;** Exercise; B-cell mass; Fibrosis and OLETF rat 35, 11
- Insulin-dependent mellitus;** Africa; HbA_{1c}; Metabolic control; Non-insulin-dependent mellitus 35, 129
- Insulin therapy;** Lipoprotein (a); Diabetes mellitus (non-insulin-dependent); Coronary heart disease; Microalbuminuria 35, 135
- Intensified insulin therapy;** Diabetes mellitus; Education; IDDM; Severe hypoglycemia; Knowledge 35, 41
- Islet cell antibody;** Glutamic acid decarboxylase antibody; ICA512; IA-2; Slowly progressive IDDM; Sarcoidosis 35, 91
- Islet cell antibody;** Mitochondrial diabetes mellitus; Mitochondrial tRNA^{Leu(UUR)} mutation at position 3243 35, 163
- Kidney function;** Diabetes; Calcium channel blocker; Volume expansion; Streptozotocin 35, 69
- Knowledge;** Diabetes mellitus; Education; Intensified insulin therapy; IDDM; Severe hypoglycemia 35, 41
- Lactic acidosis;** 3243 mitochondrial tRNA mutation; Diabetes mellitus; Delayed sleep phase syndrome; Mitochondrial encephalopathy; Strokeliike episode syndrome (MELAS) 35, 61
- Lipoprotein (a);** Diabetes mellitus (non-insulin-dependent); Coronary heart disease; Microalbuminuria; Insulin therapy 35, 135
- Metabolic control;** Africa; HbA_{1c}; Insulin-dependent mellitus; Non-insulin-dependent mellitus 35, 129
- Microalbuminuria;** Cardiovascular death; Mortality 35, 35
- Microalbuminuria;** Dipstick; Screening 35, 57
- Microalbuminuria;** Lipoprotein (a); Diabetes mellitus (non-insulin-dependent); Coronary heart disease; Insulin therapy 35, 135
- Microalbuminuria;** Retinopathy; IDDM 35, 143
- Mitochondrial diabetes mellitus;** Mitochondrial tRNA^{Leu(UUR)} mutation at position 3243; Islet cell antibody 35, 163
- Mitochondrial encephalopathy;** 3243 mitochondrial tRNA mutation; Diabetes mellitus; Delayed sleep phase syndrome; Lactic acidosis; Strokeliike episode syndrome (MELAS) 35, 61
- Mitochondrial tRNA^{Leu(UUR)} mutation at position 3243;** Mitochondrial diabetes mellitus; Islet cell antibody 35, 163

- 3243 mitochondrial tRNA mutation;** Diabetes mellitus; Delayed sleep phase syndrome; Mitochondrial encephalopathy; Lactic acidosis; Strokelike episode syndrome (MELAS) 35, 61
- Morbidity;** Albuminuria; Mortality; Retinopathy; Nephropathy; Type 1 diabetes mellitus 35, 113
- Mortality;** Albuminuria; Morbidity; Retinopathy; Nephropathy; Type 1 diabetes mellitus 35, 113
- Mortality;** Diabetic ketoacidosis; Incidence; Complications; Type 1 diabetes 35, 123
- Mortality;** Microalbuminuria; Cardiovascular death 35, 35
- Nephropathy;** Albuminuria; Morbidity; Mortality; Retinopathy; Type 1 diabetes mellitus 35, 113
- Nerve conduction;** Diabetes; Diabetic neuropathy; Adolescence; Hyperglycemia 35, 157
- Neuropathy;** Diabetic foot; Vascular disease; Type II diabetes mellitus; Primary health care 35, 149
- NIDDM;** Obesity; Weight change; Waist-to-hip ratio; Ethnic differences 35, 49
- Non-insulin dependent diabetes mellitus;** Anthropometric indices; Family predisposition; Birth weight; Precursors; Predictors 35, 75
- Non-insulin-dependent mellitus;** Africa; HbA_{1c}; Metabolic control; Insulin-dependent mellitus 35, 129
- Norepinephrine;** Norepinephrine turnover; Peripheral tissues 35, 1
- Norepinephrine turnover;** Norepinephrine; Peripheral tissues 35, 1
- Obesity;** Elderly; Diabetes; Follow-up; Impaired glucose tolerance; Oral glucose tolerance test; Prognostic factors 35, 99
- Obesity;** Weight change; Waist-to-hip ratio; Ethnic differences; NIDDM 35, 49
- Oral glucose tolerance test;** Elderly; Diabetes; Follow-up; Impaired glucose tolerance; Obesity; Prognostic factors 35, 99
- Peripheral tissues;** Norepinephrine; Norepinephrine turnover 35, 1
- Podiatry;** Ulcer; Wound healing 35, 21
- Precursors;** Non-insulin dependent diabetes mellitus; Anthropometric indices; Family predisposition; Birth weight; Predictors 35, 75
- Predictors;** Non-insulin dependent diabetes mellitus; Anthropometric indices; Family predisposition; Birth weight; Precursors 35, 75
- Prevention of diabetes;** Weight loss; Progression to diabetes; Glucose intolerance 35, 107
- Primary health care;** Diabetic foot; Neuropathy; Vascular disease; Type II diabetes mellitus 35, 149
- Prognostic factors;** Elderly; Diabetes; Follow-up; Impaired glucose tolerance; Obesity; Oral glucose tolerance test 35, 99
- Progression to diabetes;** Prevention of diabetes; Weight loss; Glucose intolerance 35, 107
- Retinopathy;** Albuminuria; Morbidity; Mortality; Nephropathy; Type 1 diabetes mellitus 35, 113
- Retinopathy;** Microalbuminuria; IDDM 35, 143
- Sarcoidosis;** Islet cell antibody; Glutamic acid decarboxylase antibody; ICA512; IA-2; Slowly progressive IDDM 35, 91
- Screening;** Microalbuminuria; Dipstick 35, 57
- Severe hypoglycemia;** Diabetes mellitus; Education; Intensified insulin therapy; IDDM; Knowledge 35, 41
- Slowly progressive IDDM;** Islet cell antibody; Glutamic acid decarboxylase antibody; ICA512; IA-2; Sarcoidosis 35, 91
- Streptozotocin;** Diabetes; Kidney function; Calcium channel blocker; Volume expansion 35, 69
- Strokelike episode syndrome (MELAS);** 3243 mitochondrial tRNA mutation; Diabetes mellitus; Delayed sleep phase syndrome; Mitochondrial encephalopathy; Lactic acidosis 35, 61
- Type 1 diabetes;** Diabetic ketoacidosis; Incidence; Complications; Mortality 35, 123
- Type 1 diabetes mellitus;** Albuminuria; Morbidity; Mortality; Retinopathy; Nephropathy 35, 113
- Type II diabetes mellitus;** Diabetic foot; Neuropathy; Vascular disease; Primary health care 35, 149
- Ulcer;** Wound healing; Podiatry 35, 21
- Vascular disease;** Diabetic foot; Neuropathy; Type II diabetes mellitus; Primary health care 35, 149
- Volume expansion;** Diabetes; Kidney function; Calcium channel blocker; Streptozotocin 35, 69
- Waist-to-hip ratio;** Obesity; Weight change; Ethnic differences; NIDDM 35, 49
- Weight change;** Obesity; Waist-to-hip ratio; Ethnic differences; NIDDM 35, 49
- Weight loss;** Prevention of diabetes; Progression to diabetes; Glucose intolerance 35, 107
- Wound healing;** Ulcer; Podiatry 35, 21
